# Bush and beach mix for own style

## REAL STYLE

with Nikki Parkinson

### WHO

Amber James, corporate communications manager for Reed Property Group. Married for three years to Corey James, director of Ahern James Naismith Surveyors. No children (yet!).

### LIVES

By the beach at Warana.

### OUTFIT

This very stylish Biz Collection company uniform is what you'll see me in when I'm at work. In the past, I've never had to wear a uniform and the concept was a tough one to overcome when I first started with Reed over a year ago. I must say however, the concept is brilliant! I have one less decision to make each morning. My shoes are from Beth & Lou - The Shoe Boutique in Ashgrove.

### STYLE INSPIRATION

My style is inspired by a real mix between the bush and the beach. I followed the man of my dreams (now my husband!) to the Sunshine Coast seven years ago and he's made a point of ensuring my checked shirts, wranglers, RMs and fob chain have been replaced with board shorts, singlet tops, Havianas and even a surf board under the arm.

### FASHION OBSESSION

At work, being smart and professional is important to me. At home however, being comfortable is number one priority. I'm obsessed about not wearing make-up on weekends. I also get very excited on Saturday mornings when I can don my outdoor gear for some adventure sport.

**AMBER JAMES:** "Our company uniform is smart, easy to wear and it instills a sense of pride among the 150 plus staff because we are a team and we look like one too."

### FAVE SHOPS

My fave shops would have to be anything to do with wine, music, outdoor adventure, coffee and spirituality.

### FAVE FASHION LABELS

When it comes to fave fashion labels, it is varied and diverse - Katmandu, Cue, Nine West, Colorado, Table Eight, Esprit and various op shops.

### HAIR STYLIST

Keiran Baker of Classi Hair Studio in Maroochydore has done my hair for the past four years. I love my regular visits to

her studio.

### FRAGRANCE

It changes all the time, however at the moment I can't go past the fresh fragrance of Issey Miyake.

### BEAUTY ROUTINE

For the past couple of years, I've treated myself to a monthly therapeutic facial by skin technologist Angela Costello, of Advanced Skin Therapy. I also use her products daily.
